

# Checkpoint 7

Fill in your name here

## Reading Requirement

Read “Hawks, Doves, and Peace: An Experimental Approach” by Mattes and Weeks. Following that, answer the following questions. As a reminder, all articles are available on bCourses, via the Library Proxy, or are free resources via the links in the syllabus.

### Question 1

What does this study do experimentally that differs from past studies better to understand the public opinion effects of conciliatory policies?

### Question 2

Describe as if you are explaining to a roommate what this article is about.

### Question 3

Describe as if you are explaining to your instructor what the research design of this study is.

### Question 4

Interpret Table 3 to your friend who has recently become wildly interested in political science research. Make sure to cover the entire table fully.
